

computer system to a user.

--16. An information management system according to claim 3 in which the entity profile comprises a combination of one or more base profiles and extension profiles.

17. An information management system according to claim 3 in which the end user is dynamically associated with infrastructure and applications via one or more base profiles and extension profiles.--

#### REMARKS

Applicants have amended the claims to remove multiple dependencies and address blatant antecedent basis and 35 USC §112 informality objections.

Respectfully submitted,
